

CHEM-BIO GLOVE

Hawkeye Chem-Bio

LIGHTWEIGHT, DURABLE & FIRE RESISTANT FOR SUPERIOR PERFORMANCE.

The most advanced, effective solution to the military's need for thin, dexterous, lightweight, durable chem-bio hand protection.

The Chem-Bio Glove System combines a durable, tactile and fire resistant Nomex®/Leather outer shell with a GORE® CHEMPAK® Ultra Barrier Glove Liner. This glove uses high-strength fluoropolymer technology to protect against biological and chemical warfare agents for up to 24 hours. It also incorporates a unique moisture management system that extends the comfort range of the glove liner.

GORE® CHEMPAK® Ultra Barrier Glove Liner inserts to provide protection against chemical and biological warfare agents

Hawkeye Chem-Bio

OUTSTANDING PRODUCT FEATURES & BENEFITS

- Employs high-strength fluoropolymer technology
 - Protects against chemical warfare agents for up to 24 hours
 - Increased tactility and comfort over the military's existing 14-mil butyl rubber gloves
 - Nomex® and treated leather outer shell provides fire resistance and durability
 - Optimizes the balance between protection and weight, making it the preferred choice to other barriers used in chemical warfare gloves
 - Maintains protective properties even after exposure to a wide range of contaminants that may be encountered in the wartime theater – petroleum, oils, and lubricants
 - Accelerated aging tests predict a storage life of over 20 years, which translates to cost reductions in shelf-life surveillance and inventory replacement
 - Available in black
- Unique moisture management system that extends the comfort range of the glove liner during use
 - Made with a polytetrafluoroethylene (PTFE) film
