

***COLD WEATHER GLOVE***

# ***Hawkeye CWVG***

## ***WARMTH AND DEXTERITY COMBINED.***

**Advanced technology creates the US Military standard for superior operability in extreme cold weather conditions** . These warm, durable gloves provide protection in extreme environments – wet, sub-zero conditions – along with optimal dexterity. The shells are waterproof, and the palms are designed to resist abrasion. Removable liners of dense fleece feature a single layer on the palms and a double layer on the back for the best combination of warmth and tactility.

They're also durable enough to handle tough environments, and climbing and rappelling while maintaining exceptional comfort, breathability, dexterity and grip.
