

BARBED WIRE HANDLER GLOVE

Hawkeye Barbed Wire

ALWAYS TOUGH ENOUGH.

Designed with toughness and flexibility to provide full protection against cuts and punctures no matter what challenges you're up against. These steel stapled gloves meet the challenges of the heaviest, most demanding applications requiring sharps and puncture protection when handling barbed wire and similar materials. A Clute design with a five-inch gauntlet allows for a seamless palm. The palm and the palm side of the fingers and thumb are reinforced with leather strips to protect against cuts and punctures. The added protection makes this glove ideal for handling sharp steel or glass.
