

INTERMEDIATE COLD FLYER'S GLOVE

Hawkeye Winter Flyer

TOP FLIGHT RESULTS IN THE AIR AND ON THE GROUND.

The US Military standard for aviators and forces on the ground requiring tactility and dexterity with thermal and flash fire protection in intermediate cold weather conditions. Originally intended for military aircrews requiring an intermediate level of cold weather hand protection, the Intermediate Cold Flyer's Glove has also become a standard issue intermediate cold weather utility and combat glove for the US Army. Flexible, comfortable and durable, the Cold Flyer's Glove provides outstanding performance in conditions of approximately 15° to 40° Fahrenheit.

Hawkeye Winter Flyer

OUTSTANDING PRODUCT FEATURES & BENEFITS

- THERMOLITE®/Thinsulate™ Insulation lining and Nomex® cuff offers insulation and thermal protection in colder temperatures
- Flexible, comfortable Nomex® and Fire Resistant Leather shell provides flash fire protection
- Outer shell and lining adds resistance to cuts and helps prevent blisters by keeping hands warm and dry during strenuous activity and in cold temperatures
- Overall design, dexterous materials and star pattern stitching on fingers provides superior trigger finger flexibility and good tactility while operating weapons, combat zone vehicles and equipment
- Durable enough to withstand digging, moving cargo and other heavy-duty activities
