Miller® Specialty Full-Body Harnesses

Miller® Specialty Harnesses incorporate features designed to meet specific needs.

ProCraft Harness

The Miller® ProCraft Harness provides a specialized fall protection design tailored to comfortably fit the needs of craftsmen who must wear tool belts and/or fastener pouches weighing up to 60 pounds.

Features:

- Harness available in stretchable DuraFlex® webbing or non-stretch webbing
- Front and back, lightweight aluminum bayonet buckles:
 - Allow for quick attachment/detachment of tool or positioning belts, without the need to remove the harness
 - Transfer tool belt weight away from the back and onto the integrated shoulder pads
- Select from tongue or mating buckle leg straps
- Harness and belt sized separately for custom fit
- Leather positioning belt (optional)

FRONT & BACK BAYONET BUCKLES

Accommodates weight of tool pouch

Concrete Construction Harness

With this harness, designed specifically for concrete construction, users easily attach to Peri® form, Symons® form and other work-positioning applications. This harness features permanently-attached web loops utilized as a lightweight positioning device – eliminating the need for a heavier rebar chain assembly.

Features:

- DuraFlex stretchable webbing
- Back D-ring provides fall protection attachment
- Tongue buckle leg straps
- Lanyard ring
- Available in polyester webbing for greater chemical resistance

Loops are for positioning ONLY. Fall protection must be attached to back D-ring.

Model No.	Product Description	Special Features
000077	Concrete Construction Harness	<ul style="list-style-type: none"> • Stretchable DuraFlex webbing • Nylon web rescue loops • Tongue buckle leg straps
Model No.	Product Accessories	Special Features
000182	Symons Form Snap Hook	• Form hook w/attached carabiner
