MILLER FALCON™

SELF-RETRACTING LIFELINE

LIFETIME HOUSING GUARANTEE*

Nearly indestructible, high impact-resistant nylon housing withstands the harsh rigors of the toughest applications. Smooth, round edges increase durability.

Introducing the lightest, most rugged line of composite retractables on the market. Pound for pound the strongest, most durable, retractable lifeline available.

- **Corrosion-resistant** stainless steel and aluminum internal components extend service life and reduce replacement costs.
- **Lightest composite unit on the market** – easy to handle and transport to/from jobsites.
- **Unique side payout design** reduces wear on the entry guide bushing and cable for smooth operation with less drag.
- **Smooth, quiet operation;** Engineered **spring retraction tension** designed not to pull or drag on a worker to improve productivity and reduce fatigue.
- **Built-in, ergonomically-designed molded handle** on the 50- and 65-foot units provide support and leverage when attaching to anchorage connector. Easier to install.
- **Dual swivels** (unit top and snap hook) included on all models to prevent lifeline from twisting during use.
- **New and improved load indicator** on the snap hook identifies when the unit needs to be removed from service.
- **No annual factory recertification required**** – lowers cost of ownership and increases productivity.

*When used under typical working conditions.

** Except in Canada where the Canadian Standards Association requires annual factory recertification.
