	<p>CFL-7/9FT</p>	<p>ANSI A10.32 Compliant 9-ft. Stainless Steel Cable; Unit Connector: Carabiner With Captive-Eye Pin; Lanyard End Connector: Locking Swivel Snap Hook with load indicator</p>

Overview

Key Features

- The Black Rhino SRL's are designed with stainless steel wire rope to endure the daily rigors of harsh environments.
- Ideal for concrete construction, welding, steel erection, food processing and warehouse applications.
- Lightweight 4.3 lbs. (1.9kg)
- Repairable; no annual factory recertification required – lowering cost of ownership
- Quick-activating, high-strength stainless steel braking system – arrests free falls, providing a quick, safe rescue
- Variety of integral anchorage connectors available – provides ultimate flexibility of use in a variety of applications
- Integral load indicator – indicates when the unit must be removed from service and returned for repair
- Extended service life – corrosion-resistant stainless steel and aluminum components

Recommended Industries/Use

- Construction
- Government
- Manufacturing
- Municipal Services
- Steel and Metals

Hazards

- Confined Space
- Fall from height

Regulations

- - Meets all applicable OSHA, ANSI and CSA standards

Warranty Information

We sincerely believe that our fall protection equipment is the best in the world. Our products endure rigorous test to ensure that the fall protection equipment you trust is manufactured to the highest standards. Miller fall protection products are tested to withstand normal wear and tear, but are not indestructible and can be damaged by misuse. Our Limited Lifetime Warranty does not apply to normal wear and tear or abusive treatment of the product. In the unlikely event that you should discover defects in either workmanship or materials, under our Limited Lifetime Warranty, we will repair or replace the product at our expense. If a replacement is necessary and your product is no longer available, a comparable product will be substituted. Should a product issue surface, contact us at 800/873-5242. Manufacturing specifications are subject to change without notice.

Specifications

Specification Sheets

For full engineering specification sheets, go to downloads and documentation

Miller Black Rhino Cable SRL

Maximum Working Capacity	Rated to 400 lbs. (181.4kg) capacity when using a SofStop shock absorber (928LS/18INYL)
Integral internal shock absorber	Consistently reduces fall forces to 900 lbs./f (4kN) or less for greater safety
